Assistant Director for Operations

October 14, 1947

Chief, FBIS

Soviet Prisoner-of-War Broadcasts

For your information, the Moscow radio has reverted to a war-time device to expand its audience among the Japanese, that of broadcasting messages from Japanese prisoners of war in the Soviet Union to their families. These messages are monitored and transcribed at the [redacted] and furnished by airmail to G-2 in Tokyo, where a card index of names and addresses is maintained with a view to interviewing the individuals upon repatriation.
